## Loans To Greece

International Bank Is To Arrange

**FOR ADVANCE**  
COPIENHAGEN—A mission sent to Greece by the United Nations Food and Agricultural Organization proposed to the F.A.O. conference a broad-based development program for Greece and recommended the extension of a U.N. mission to operate the program during the year.

The report made after four months study in Greece, the mission recommended that the International Bank for Reconstruction and Development agree to advance loans to Greece in 1947-48 to the total of \$10,000,000 to start the program.

The report said Greece can double its per capita production and national income in four years with the aid of the program. The report said that the program will be financed by the sale of wheat and other agricultural products for irrigation and hydro-electricity, the extension of the electric grid, modern technology, the development of the improved methods and the expansion of industry to use surplus labor effectively.

Commenting on the progress thus far made at the F.A.O. current conference, Director-General Sir John Boyd Orr said he thought it was "reasonable, desirable, and sound" that the statements made by delegates from the various countries, and that the mission could get together on the basis of the most fundamental principles, in a world still torn by strife over other international questions.

## Nearly Succeeded

U.S. War Board Says Army Tried

To Control National Economy

WASHINGTON—Donald M. Nelson, former chairman of the United States War Relocation Authority, was the main control of one national economy, "virtually succeeded in 1944 and thereby hampered recovery," Mr. Nelson wrote, in his book "Against the Odds," published by the University of Chicago Press. The book is a history of the war and the war effort, and the book is a history of the war and the war effort, and the book is a history of the war and the war effort.

## Large Meteorite

Reported To Have Flashed Across

The Sky Near Toronto

TORONTO.—Following a large meteorite which was reported to have flashed across the sky near Toronto, Ontario, on May 10, 1947, the U.S. War Relocation Authority, which is in charge of the war effort, has reported that the meteorite was a large meteorite, and that it was a large meteorite, and that it was a large meteorite.

## SAVED MANY LIVES

Sir Edmund Howard Wright, one

of the greatest medical men of his generation, who only for 30 years drew a large salary from the government, has celebrated his 85th birthday. Sir Edmund, who was born in 1862, has been a member of the House of Commons, and has been a member of the House of Commons, and has been a member of the House of Commons.

## TOO WEAK TO DO ANYTHING

ON CERTAIN DAYS OF MONTH?

This medicine is very effective in relieving the pain and discomfort of the menstrual period. It is a natural remedy, and it is a natural remedy, and it is a natural remedy.

LYDIA E. PINKHAM'S TESTIMONY

## NEW TIME-SAVERS

Will Enable Women To Do House-

work With Greater Speed

Electronic experts, chemists,

and economists and other authori-

ties agree that the day will be

born when the Canadian housewife

will get more time for her own

hobby, laundry and other tasks in

much shorter time than she has be-

fore. This prediction is based on the

large number of household improve-

ments now being made, and the

many in vacuum cleaners, pressure

cookers, electric irons, and other

things, the tremendous forward

motion taking in the field of chemis-

try.

The machine experts of the latter

are now working on a new machine

which will require no rinsing and no

wiping. It will clean all material, var-

ious, and even iron, and even

the secret is a special formula which

will clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even

the cloth, leaving the surface abso-

lutely clean with no soap, and even
